Purpose:

To define the practices for complying with the Michigan Mental Health Code and the Michigan Department of Health and Human Services (MDHHS) requirements for conducting Pre-Planning for Person Centered Planning (PCP).

Scope:

This procedure applies to all clinical employees (including full-time employees, part-time employees, contractual providers, students, and/or interns) of Huron Behavioral Health (HBH) and all individuals served by HBH.

Information:

1. Pre-planning is prefaced on the belief that all individuals served by the Community Mental Health Services Program (CMHSP) have the right to make their own choices and must be provided with choices regarding their services with HBH.
2. A Pre-Planning meeting must be completed by the worker in advance of the Person-Centered Planning (PCP) meeting (except for those receiving short-term outpatient therapy only, medication administration only, or who are incarcerated). This must be done face-to-face unless there is a guardian involved and the guardian is not available. In this case, it may be conducted over the phone. In all cases, this must be completed prior to the PCP meeting date with sufficient time to take all necessary/preferred actions prior to the PCP meeting. However, the worker must meet face-to-face with the consumer and his/her supports (if needed) to assure that the consumer has had input into the planning of his/her PCP in order to have a valid Pre-plan and must obtain his/her signature on the pre-plan form.

Procedure:

1. In accordance with the Michigan Mental Health Code (330.1712), new consumers need to have a Person-Centered Plan (PCP) developed within seven (7) days of the commencement of services (see also ["Person-Centered Planning \(PCP\) Policy" QI.1.05](#) and ["PCP Procedure" QI.2.18](#)). Part of the Person-Centered Plan includes the requirement to conduct a PCP Pre-Plan meeting with the consumer. If the consumer is already active in services at HBH, the Pre-plan is to be developed about the time of the third (3rd) Periodic Review.
2. Using the Pre-Plan form in the Electronic Medical Record (EMR) system, the primary worker will meet with the consumer to determine their choices for their PCP meeting, which includes determining their choice for:
 - The date they would like their PCP meeting
 - The time of their PCP meeting
 - The location of their PCP meeting
 - Who they want (and do not want) to attend their PCP meeting
 - What they would like discussed (and not discussed) at their PCP meeting
 - Assistive technology or assistance with LEP (Limited English Proficiency) needed
 - An Independent Facilitator
 - A Recorder for their meeting
3. The primary worker must also provide information relative to Self-Determination and Independent Facilitation. The consumer will be given a choice of at least two (2) independent facilitators. If the consumer is on a Habilitation Waiver, the pre-planning session must include information to assist the consumer in providing
