Purpose:

To define the process and protocols for documenting clinical progress notes.

Scope:

This procedure applies to all employees (including full-time employees, part-time employees, contractual providers, volunteers, students, and/or interns) of Huron Behavioral Health (HBH) and all consumers served.

Information:

- The delivery of services is documented in the consumer's case record using the Progress Note Form in the Electronic Medical Record (EMR) system.
- Progress notes should record the consumer's progress toward the stated goals, objectives, and team assignments as identified in their individualized Person Centered Plan (PCP).
- There are two types of progress notes, direct and support (support progress notes are not billable). In a "direct contact", the worker must meet face-to-face with the consumer. "Support contacts" may include telephone contact(s) with consumer, agencies, or other persons regarding the consumer's status without the consumer present. Any contact that is made with/for a consumer that is in relation to authorized services (as defined in the PCP and in alignment with the Medicaid Provider Manual), must be documented on a progress note and coded (for billing purposes) as a contact (either direct or support).

Procedure:

1. Contacts are to be provided in accordance with the frequency, amount, and duration defined in the individual's PCP and documented promptly (typically within 24 business hours) of the service (see "[PCP Policy](#)" [QI.1.05](#) and "[PCP Procedure](#)" [QI.2.18](#)).
2. Staff will document the consumer's progress (or lack of progress) on the progress note form in the EMR system each time a service is provided.
3. Staff will document the following information (as applicable) using the progress note form:
 - Consumer name, case number, service codes, place of service, address, etc.
 - Goals and progress toward defined goals (as defined in the PCP)
 - Mental status and/or Observations
 - Medications compliance (if applicable)
 - Behavioral concerns
 - Presenting issues
 - Interventions
 - Other issues as pertinent/applicable
4. Concurrent documentation is encouraged, but in all cases, progress notes should be completed within twenty-four (24) hours of the contact.
5. Staff should also document (in the case record) consumer cancellations and no-shows, as well as staff cancellations.
