Purpose:

To define the proper investigation, documentation, and follow-up activities related to consumer complaints.

Scope:

This procedure applies to all employees (including full-time and part-time employees), contract providers, volunteers, students, and/or interns, of Huron Behavioral Health (HBH) programs and all consumers served.

Information:

1. It is the policy of HBH that all consumers will have the right to a fair and efficient process for resolving complaints regarding their services and supports which are managed and/or delivered by HBH. Procedures are in place to ensure a timely, fair, accessible and understandable process for resolving consumer grievances and appeals based on the Michigan Department of Health and Human Services (MDHHS) Technical Requirement.
2. The MDHHS Technical Requirement states "conceptually, the grievance system divides beneficiary complaints into two (2) categories, those challenging an action, and those challenging anything else. A challenge to an action is called an appeal. Any other type of complaint is considered a grievance."
3. Consumers and/or their legal representative shall receive written and verbal information about their grievance and appeal options at various stages of treatment, including phone screening by the contracted Access/Customer Services provider, intake evaluations, and interim treatment planning at the Community Mental Health Services Program (CMHSP) provider network, annual treatment planning meetings, and whenever requested. It will be provided in a language format needed by the individual to understand the content. Consumers will also be given information about the mediation process.
4. All grievances and/or appeals must be filed through HBH's contracted Access/Customer Service Center at:
Customer Service
P.O. Box 882
Bay City, MI 48707-0882
1-888-482-8269
5. Individuals may file a grievance or appeal with HBH's contracted Access Center at any time verbally or in writing without any interference or retaliation. The contracted Access/Customer Services staff will offer assistance in completing required forms when the consumer requests help. HBH staff may also assist in completing required forms when consumers request help. All processes will promote the resolution of concerns and improvement in the quality of care. Complaints should be resolved at the level closest to service delivery whenever possible.
6. Organizational providers may file an appeal or grievance with the Clinical Director at Huron Behavioral Health. If they are not satisfied with this outcome, they may then appeal to the HBH Executive Director.
7. Written notice is given to consumers whenever a Medicaid State Plan, waiver, or alternative service is denied, reduced, suspended, or terminated. The notice is given in writing and in the language which is understandable to the consumer. (When an alternative language or communication method is needed, it will be provided at no cost to the consumer. See "[Limited English Proficiency \(LEP\) Accommodation Policy](#)" RR.1.02). If the consumer disagrees with the action, he/she may request an appeal through the contracted Access/Customer Service provider. If resolution is not reached at the local level, a MDHHS State Fair Hearing may also be requested. An individual can file for a State Fair Hearing by writing to:

10. HBH staff shall not interfere with a consumer's access to grievance, appeal, mediation, or fair hearing processes.
11. Medicaid and Healthy Michigan Plan (HMP) consumers must be notified of the MDHHS State Fair Hearings process as soon as it becomes evident that services will be denied, suspended, reduced, or terminated. 14. Consumers will be advised of external advocacy services available to them
15. New consumers are screened by the contracted Access/Customer Service provider. If services are requested but denied by the contracted Access/Customer Service provider (as a result of not meeting medical necessity, severity of illness, and/or intensity of service criteria), they will provide an Adverse Benefit Determination Notice and HBH receives a copy.
16. There are no incentives to staff for the denial, limitation, or discontinuation of services to any consumer.

A. Grievance/Informal Dispute Resolution/Local Resolution Process:

1. Any consumer may request the grievance resolution process regarding a complaint for services and supports.
2. HBH will record the grievance, send an acknowledgement letter to consumer within five (5) days, and notify the HBH Clinical Director.
