

HURON BEHAVIORAL HEALTH POLICY

Procedure #: **SD.1.14**
Issue Date: 04/23/07
Rev. Date: 11/15/24
Page: 1 of 3

Title: Welcoming Policy

Prepared By: Clinical Director

NOTE: This Document Copy is Uncontrolled and Valid on this date only: December 23, 2024. For Controlled copy, view shared directory I:\drive

Purpose:

To define guidelines for ensuring that HBH staff embraces a welcoming philosophy and a welcoming approach to all individuals in all programs including programs providing services for co-occurring mental health and substance use disorders.

Scope:

This policy applies to all employees (including full-time and part-time employees), contract providers, volunteers, students, and/or interns of Huron Behavioral Health (HBH) and all individuals served.

Information:

1. In accordance with Huron Behavioral Health's core values of dignity, integrity, hope, excellence, action, and innovation, HBH staff shall be welcoming, accepting, and helpful with all consumers and participants regardless of the challenges or problems they face. Welcoming principles are utilized regardless of the original entry point and is part of a continual and seamless process throughout the organization from access and entry through on-going services and eventual discharge. This will be done in a way that is non-judgmental using good customer service skills. HBH expects many of the individuals who present may have co-occurring disorders and clinical staff will screen for these conditions. HBH provides life enhancing recovery options including integrated services related to alcohol and drug addiction and other behavioral health disorders. HBH's goal is to maintain an empathetic, ethical, responsive, and professional attitude in all phases of care. HBH is dedicated to creating an environment of opportunity, choice, respect, privacy, and hope.
2. It is also recognized that when a person enters Huron Behavioral Health, he/she is reaching out for help, and deserves an empathetic and welcoming response. The life of each person is precious, and we are part of welcoming him/her into quality sobriety, including recovery from co-occurring medical and psychiatric conditions. HBH will assist each person who enters the door seeking help, by making sure the individual:
 - has an integrated risk assessment to identify any safety concerns
 - is connected to a treatment that integrates attention to his/her multiple needs
 - is appropriately provided and/or referred for all of the necessary resources during and after treatment.
3. HBH welcomes all individuals seeking recovery from co-occurring disorders. It is the mission of HBH to provide integrated services related to alcohol and drug addiction and other psychiatric disorders in order to improve recovery success. HBH recognizes consumers often have addiction, psychiatric disorders, and medical conditions that interact and impact their quality of life. In order to provide a holistic and comprehensive recovery treatment, staff recognizes and places high importance on integrating attention to addiction, psychiatric, and medical issues throughout the treatment process in order to assist individuals in achieving stabilization in all life areas. These integrated services may include referrals to other providers when appropriate for the individual's needed area of recovery and if so, these other areas are incorporated into the consumer's individual Plan of Service (IPOS) which is developed through the person-centered planning process (see also "[Person-Centered Planning Policy](#)" [QI.1.05](#) and "[Individual Plan of Service/IPOS Procedure](#)" [QI.2.18](#)).
4. HBH adheres to a "No Wrong Door" approach in order to remove barriers to care and services. Outreach is a system-based effort and as a result of advocacy and referral, individual needs are addressed either by direct services or by another provider within the human service community. HBH's philosophy is to ensure that individuals receive the services they need and for which they meet eligibility requirements.
5. HBH respects each individual served and makes every effort to provide safe, clean, barrier-free facilities which make the consumer feel safe, comfortable, welcomed, and protected from harassment and violence.

Policy:

1. All consumers must meet eligibility criteria for Serious and Persistent Mental Illness (SPMI), Serious Emotional Disturbance (SED), Intellectual/Developmental Disability (I/DD), and/or Co-Occurring Disorders (COD) whereby both Mental Health and Substance Use Disorders (SUD) are present.
2. At all stages of service, the following welcoming expectations will apply to all persons served:
 - a. consumers will be accepted at any stage of their illness pattern (the “where they are” concept)
 - b. all staff will be adequately trained in the welcoming philosophy
 - c. consumers will be offered opportunities to learn about and participate in wellness activities
 - d. consumers will be informed about HBH’s procedures for maintaining a safe service environment, including practices for addressing harassment and violence towards consumers and staff.
 - e. providers will be skilled in listening and assisting the individual with trauma, crisis, and functioning difficulties to assess their experiences and to determine a range of options and provide appropriate clinical interventions within eligibility requirements and budgetary constraints
 - f. consumers will be diagnosed utilizing the appropriate screening tools
 - g. programs will strive for consumer satisfaction regarding their treatment/services
 - h. providers will strive to provide useful, relevant, and meaningful treatment
 - i. HBH will provide continuity and consistency of care across all programs and services
3. All consumers (new, established, and/or returning) will be assessed for co-occurring disorders using the LOCUS and/or MIDAS assessment tools and oriented/educated about available services. A service array will be developed and incorporated into the IPOS which encompasses the individual’s needs and he/she will be referred to the appropriate services.
4. The consumer will also be screened for safety and medical stability. If the consumer is not medically stable, he/she will be encouraged to get medical clearance at the local emergency room or will be linked to natural supports within the context of their treatment.
5. All staff shall be knowledgeable, friendly, helpful, and dressed appropriately; all staff should demonstrate a positive, warm, and welcoming attitude toward consumers free from bias.
6. Consumers are familiarized with the lay-out of the building including the location of their meeting room, restrooms, informational materials (such as brochures), etc.
7. Consumers are provided a copy of the regional consumer handbook which includes a written welcoming statement as well as additional information and possible resources.
8. Consumers are provided with appropriate resource materials and telephone numbers (e.g., brochures, handbooks, emergency phone numbers, area providers, area self-help groups, HBH website, etc.).
9. All staff will strive to assure that consumers feel welcomed, valued, accepted, and that the consumer’s needs are met.

Definitions/Acronyms:

Acronyms:

COA – Council on Accreditation
COD – Co-Occurring Disorders
HBH – Huron Behavioral Health
